Joe Wright

With over 30 years of experience in the training and customising of Computer Aided Design products, a confident presentation and customer facing manner, coupled with a lifetime of coding proficiency, I may just have the skillset you are looking for.

Focusing on the delivery of Civil 3D training, as well as advanced AutoCAD customisation techniques, I have set syllabi and modules to cater for most engagements.

All prices are for me per day. Reasonable expenses will also be expected and facilities such as training rooms, equipment and valid training software licenses will need to be provided or arranged.

Please feel free to contact me to discuss your requirements.

Telephone (07786) 397415 or EMAIL: joe.wright@toponetics.com
